Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Figures 1-5; 6-9; 10-11; 12-15; 16-19; 20-21; 22-23; and 24-25.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a)

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. The claims are deemed to correspond to the species listed above in the following manner:

Art Unit: 2643

Figs. 1-5 – claims 15-21 and Figs. 6-9 – claims 22-31.

The following claim(s) are generic: none.

3. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: the special technical feature of Species I is the particular mounting of the earpiece in the cavum conchae while the special technical feature of the second species is the particular mounting of the earpiece such that it is countersunk and fitted in the cymba.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sinh Tran whose telephone number is (703) 305-4040. The examiner can normally be reached on M,T&Th 9:00AM-7:00PM.
